## **PRESS STATEMENT**

### **MHRA Welcomes Airmalta Agreements**

The Malta Hotels and Restaurants Association hails the signed agreements by Airmalta with GWU and the Association of Airline Engineers covering working conditions and the voluntary and early retirement schemes as a big step in the right direction. MHRA has been very consistent in stating that it is essential to finalise the restructuring of Airmalta in the shortest time possible. The importance of Airmalta to Malta's economy cannot be disputed and this importance is amplified further in connection with the tourism industry. MHRA President Mr Tony Zahra said "accessibility to Malta is the key to Malta's success in the Tourism industry and Airmalta is a fundamental part of this success."
